Fund Facts

Portfolio Name	Transamerica Aegon Money Market VP*
Lipper Category	Money Market

Portfolio Characteristics

Net Assets	\$666.50 Million (all share classes)
Number of Holdings	33

Class Facts

	Inception Date	Gross Expense Ratio	Net Expense Ratio
Initial Class	10/02/1986	0.42	0.42
Service Class	05/01/2003	0.67	0.67

Expense ratios for Service Class shares are higher than Initial Class shares due to the inclusion of 12b-1 fees.

Expense ratios shown reflect fee waivers, expense reimbursements, or expense recaptures, if any, which are at the discretion of the Investment Adviser. Fee waivers and expense reimbursements are included in the Net Expense Ratio only. Expense recaptures are included in both the Gross Expense Ratio and the Net Expense Ratio.

Holdings are subject to change and are not recommendations to buy or sell a security.

*All facts, statistics and information presented are those of the underlying portfolio in which the investment option invests. This underlying portfolio is only offered as an investment option within a variable annuity contract.

**Not insured by FDIC or any federal government agency. May lose value.
Not a deposit of or guaranteed by any bank, bank affiliate, or credit union.**

Investment Strategy

This investment option invests in a portfolio which, Aegon USA Investment Management, LLC ("AUIM"), invests the portfolio's assets in the following high quality, short-term U.S. dollar-denominated money market instruments: short-term corporate obligations, including commercial paper, notes and bonds, obligations issued or guaranteed by the U.S. and foreign governments and their agencies and instrumentalities, obligations of U.S. and foreign banks, or their foreign branches, and U.S. savings banks and repurchase agreements involving any of the securities mentioned above.

This Portfolio is only offered as an investment option within a variable annuity contract.

Variable annuities are long-term tax deferred vehicles designed for retirement purposes. They offer three main benefits: tax-deferred treatment of earnings, guaranteed death benefit options, and guaranteed lifetime payout options. Variable annuities are subject to investment risk, including possible loss of principal.

The value of the variable annuity will fluctuate so that when surrendered, it may be worth more or less than the total of premium payments. Past performance is no guarantee of future results.

There are other investment choices available with different management fees associated with each choice.

An investment in the money market subaccount is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although it seeks to preserve the value of your investment at \$1.00 per share, it is possible to lose money by investing in the subaccount.

Please keep in mind that a U.S. Backed Government Fund guarantee applies only to the timely payment of principal and interest, and does not remove market risks when shares are redeemed.

You should consider a variable annuity's investment objectives, risks, charges, and expenses carefully before investing. Call 1-800-525-6205 for a contract and fund prospectus containing this and other information. Please read it carefully.
