

Transamerica PrincipiumSM II Variable Annuity

The performance quoted represents past performance and does not guarantee future results; and current performance may be lower or higher than the performance quoted. The annuity value will fluctuate with market conditions so that when surrendered, it may be worth more or less than the total of premium payments.

This material gives performance numbers for Transamerica PrincipiumSM II Variable Annuity. Variable annuities are long-term, tax deferred vehicles that offer investment options through subaccounts and insurance features such as annuitization and death benefit options. Investors should consider the investment objectives, risks, charges and expenses of each investment company carefully before investing. Both the contract prospectus and underlying fund prospectus contain this and other information about the investment companies. The contract prospectus and underlying fund prospectus should be read carefully before investing. To request a prospectus be mailed to you call 800-525-6205. To obtain performance data current to the most recent month-end go to www.transamericaannuities.com.

Taxes are due upon distribution of earnings. Distribution of earnings made prior to age 59½ may be subject to a 10% federal tax penalty. Surrender charges may also apply according to the terms of the variable annuity contract.

The fees and charges reflected in the performance figures shown may not be specific to your annuity contract and, therefore, not reflect the returns your annuity earned. Some portfolios may not be available to existing annuity owners. Generally, each portfolio has broad risks that apply to all portfolios, such as market risk, as well as specific risks of investing in particular types of portfolios. Investing in certain types of portfolios, such as foreign (non-U.S.) securities or small or mid-cap funds, subjects your annuity to greater risk and volatility than the general market. The risks of a fund may be increased by the use of derivatives, such as futures, options and swaps. Please see the contract prospectus and underlying fund prospectus for the specific risks associated with each subaccount.

An investment in the money market subaccount is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. Although it seeks to preserve the value of your investment at \$1 per share, it is possible to lose money by investing in the subaccount.

Returns reflect performance of the portfolio and subaccounts assuming a single premium payment at inception (date next to name), with the Return of Premium death benefit and are net of all asset-based fees, including the daily mortality and expense risk fee and administrative charge equal to 1.00% annually, 12b-1 fees (if any) and all other actual portfolio expenses. **Annual service charge and maximum surrender charge 5% apply to returns in the "With Surrender Charge & Service Charge Deducted" column.** They do not include charges for other optional riders, or any taxes that may apply at distribution. IF THEY HAD, PERFORMANCE WOULD BE LOWER. Returns prior to the subaccount inception date are hypothetical and reflect performance as if the annuity was available. The figures in the tables may reflect waiver of advisory fees and reimbursement of other expenses. IN THE ABSENCE OF SUCH WAIVERS, THE PERFORMANCE WOULD HAVE BEEN LOWER.

Investment option names may vary from their corresponding portfolio names. Please see the contract prospectus for portfolio names.

Not Insured by FDIC or Any Federal Government Agency.

May Lose Value.

Not a Deposit of or Guarantee by Any Bank.

-
- § - Returns for the period prior to the inception of this class of share with 12b-1 fee are based on historical returns for a class of shares without a 12b-1 fee, adjusted as if the 12b-1 fee had been in effect since the inception date.
 - Δ - The seven-day yield refers to the annualized income generated by an investment in the subaccount over a specified seven-day period. For the effective yield, the income earned by an investment in the subaccount is assumed to be reinvested. The yield calculation does not reflect the deduction of surrender charges. See the Prospectus and Statement of Additional Information for further details regarding calculations of yields.
 - ± - This subaccount is only applicable when the Retirement Income Choice® 1.2 rider is chosen and the Open Allocation Option is utilized. The returns do not reflect the deduction of the Retirement Income Choice® 1.2 rider fee. Only the insurance company can transfer assets in and out of this subaccount.
 - £ - Effective December 12, 2011, "Transamerica" has been changed to "TA" and the "VP" has been removed from the subaccount name.
 - ¥ - Effective on or about December 12, 2011, the subaccount name is formerly known as Transamerica AEGON Active Asset Allocation - Moderate Growth VP.
 - ¶ - Effective on or about December 12, 2011, the subaccount name is formerly known as Transamerica Index 100 VP.
